

THE FOUNDER

EDUCATIONAL ADVOCATE

I.E.P. — I Educate People

As a veteran educator with over 30 years of experience, I have witnessed first-hand the struggles of students, parents, educators, and even school districts when it comes to navigating the complexities of the American education system.

It did not take me long to realize I had strengths in advocating for those with special needs and learning disabilities. I realized many parents and educators felt overwhelmed by the needs of these students and struggled to find a path forward. They would seek my guidance and I became the go-to person for students with academic or behavioral challenges.

That is why I started Elite Educational Consulting. I have been in business since 2002 supporting countless students, parents, and educators. My mission is to be an educational advocate for students and families who need skilled, ethical, academic, or social-emotional guidance. I also work with educators to foster career satisfaction and professional development.

Over the course of my career, I have worked in various educational roles. This has given me the chance to develop a wide range of specializations in Special Education Leadership, K-12 Mathematics, Biology, Chemistry, K-12 Special Education, and Psychology.

With my academic and professional skill sets, the US District Court of Virginia Eastern District, Administrative Hearing Officers under IDEA, Circuit Courts in Virginia, and Juvenile Domestic Relation Courts in Virginia have been deemed an expert in special education and 504 Plan policy. I understand how confusing and complicated these learning plans can be, and I love working with and advocating for students, families, and educators as they develop them. My academic and professional skill sets in science, mathematics, and school administration also certify me with expertise in these fields of education. I hold numerous degrees, including a Master of Science in Psychology specializing in Applied Behavior Analysis, a Doctor of Philosophy in Special Education Leadership, a Master of Science in Interdisciplinary Studies, a Master of Education in Curriculum and Instruction, and a Bachelor of Science in Biology Education.

Thanks to my vast experience, I am recognized as an expert in education. I have been called in as an expert witness in court cases and have presented three cases before the Supreme Court.

Are you currently struggling with the educational needs of your students? I am ready to be your partner. Contact Elite Educational Consulting today to get started.
